HIGHLIGHTS

- Over 7 years of experience designing and developing Minecraft mods using Java.
- Over 539 million project downloads across my open-source projects.
- Over 1.5 years of experience leading the development of UGC content for big content creators such as MrBeast and Socksfor1 amassing 9+ million total views for 2 released videos.

EXPERIENCE

Minecraft Studio Mod Developer

July 2026 – Present

Block Factory

Remote

- Bring game design documentation to life by working closely with a team of developers, artists, and musicians to fulfill the vision of the mod documentation.
- Create various QA tools for analyzing and debugging the implementation of mod assets in game including Textures, Block Models, Animations, Sounds, and more.
- Work with bedrock developers to ensure the mod is correctly ported from the Java edition to the bedrock edition to ensure feature parity.

Minecraft Mod Developer

Dec 2019 – Present

Remote

- Created, designed, and programmed various free and open-source Minecraft mods downloaded by over 329 million players worldwide with over half million weekly downloads utilizing Forge and Fabric mod loaders in Java.
- Work on numerous teams to bring ideas and concepts to life.
- Provide support and address bugs reported by players.
- Design various libraries for other developers to optimize their development times.

HCR Carrier

Dec 2025 – June 2026

USPS

Kern County, California

- Delivering mail and packages to customers in a timely and efficient manner.

Java Developer

Jul 2023 – Nov 2023

SocksFor1

Remote

- Programmed engaging Minecraft mods for 100+ player YouTube video events watched by millions.

Java Game Developer

Jun 2022 – May 2023

MrBeast Gaming

Remote

- Led a team to design and develop high-quality Minecraft YouTube videos viewed by millions.

EDUCATION

Electrical Engineering

2025 - 2029

College

Study of electrical systems, circuits, and devices. Focus on designing and analyzing electrical components and systems.

PROJECTS

Oh The Biomes You'll Go | *Java, Procedural World Generation, Team Lead, Game Development* Jan. 2020 - Present

- Over 50 million downloads with around 40 thousand daily downloads.
- Responsible for the key programming and collaborating with team members to create new environments in Minecraft worlds.
